---

PROFILE

Aspiring Unity Game Developer with hands-on experience in developing 2D and 3D games using Unity and C#. I completed training and internship in Unity game development, where I built projects such as memory games, quiz games, and card-based games. Skilled in gameplay scripting, UI implementation, and debugging, with a strong interest in creating interactive and engaging game experiences.

TECHNICAL SKILLS

Languages: C#
Game Engine: Unity
Gameplay Systems: Memory Card Game Mechanics, Quiz System with Multiple Choice Logic, First-Person Exploration Controller, Procedural Endless Runner Spawning
Tools: Unity Animator, Unity Input System, Unity UI System, Unity Physics
Concepts: Object-Oriented Programming, Gameplay Scripting, Game UI Design, Basic Game Optimization

PROJECTS

Memory Card Game | Unity, C#

- Developed a 2D card matching game with flip animations and matching logic.
- Implemented score tracking and restart system using Unity UI.

Maths Quiz Game | Unity, C#

- Built a quiz system with multiple-choice questions and answer validation.
- Designed UI for questions, options, and score display.

FPS Horror Exploration Game | Unity, C#

- Created a first-person exploration system for navigating a house environment.
- Implemented player movement, camera control, and interactive environment elements.

Procedural Endless Runner | Unity, C#

- Developed an endless runner with procedurally spawning obstacles and paths.
- Implemented player movement, collision detection, and score system.

PROFESSIONAL EXPERIENCE

Unity Developer Intern
Bigboy School of Gaming — 6 Months

- Developed a Spider Solitaire card game using Unity and C#
- Implemented card movement logic and rule validation
- Built UI interactions for card gameplay

EDUCATION

Certificate Course in Unity 2D/3D Game Development
BigBoy School of Gaming — 6 Months
Higher Secondary (12th – Computer Science)
[Govt Higher Secondary School, Kerala State Board — 2023
